

# JOURNEY WRITING PROMPTS

Let's write a story about an unforgettable journey!

The train crept  
down the  
mountain...

She woke on the  
tiny raft...

The road twisted  
through the snowy  
landscape...

The plane landed  
with a bump...

Their car was  
packed. Even the  
dog was excited...

The ferry sounded  
its foghorn as they  
slid into the night...

They heard the sound of a seaplane out at the lake...

The highspeed train sped through the countryside, everything a blur...

It was morning as the helicopter roared into life...

He set out on his journey, hiking across the country...

The mountain bike whirred on the trail, she had to watch for bears now...

He could see so many types of fish through the glass-bottomed boat...

Their camper was parked in the middle of nowhere...

He rode his bike through the dense forest...

There were only 10 seconds to liftoff, and they would be on their way to Mars...

The submarine sank beneath the waves, and they settled in...

Her electric car was fully charged as she zoomed out onto the highway...

The wind roared in his ears as his bicycle sped down the mountain road...

The train's passengers were rocked to sleep as it moved on through the night...

Clinging to the back of the camel, she saw the pyramids come into view...

The giant cargo ship crashed through the waves, no sight of land yet...

The narrow swinging bridge swayed as they stepped onto it...

As the ship sailed away, she...

The hot air balloon rose higher and higher...
